1 Introduction

Diversity, equity and inclusion (DE&I) are essential success factors for companies. As an internationally operating Group, we see the DE&I values as key to our long-term business success and as important elements of our corporate social responsibility.

We unite a diverse corporate culture that reflects the various facets of society and thus addresses the different needs of our customers. We build on this diversity to achieve business success, because diverse workforces perform better and are more innovative. This allows us to stand out as an attractive employer and preferred business partner.

“We won’t stop until everyone is connected.” With this company purpose, as one of the world's leading telecommunications companies, we want to meet the essential human need for connection and enable it technologically for everyone around the globe.

We reflect and strengthen our objective and our Guiding Principles amidst business and social changes, such as worldwide demographic change, globalization, and digitization. In our aspiration also lies the value of inclusion, which illuminates our purpose in a non-discriminatory, holistic and socially sensitive way, building on our long-standing guiding principle, "Act with Respect and Integrity."

Across all diversity dimensions (see 4.1.), Deutsche Telekom values and promotes the innovative opportunities offered by diverse skills, opinions and ideas. We are committed to a work environment in which these come to fruition and foster a sense of belonging for all employees.

Achieving sustainable change and improvement for the company and its employees requires the full participation and personal accountability of all parties to this Diversity, Equity and Inclusion (DE&I) Group Policy.

2 Addressees and scope of this Group Policy

This Group Policy applies to all employees (members of the Board of Management, managing directors, executives as well as all employees of Magyar Telekom Group and persons who are functionally equivalent to employees, such as temporary workers) of the Magyar Telekom Group, insofar as the relevant management body or the relevant member of the management has resolved or decided that this Group Policy applies to his or her company. Third parties outside the group are not addressees of this Group Policy, therefore this Group Policy does not have any protective effect for them.

3 Local adaption of this Group Policy

When implementing this Group Policy in the international companies, the respective prevailing national and supranational law and the respective cultural practices as well as - if applicable - the rights of social partners must be observed. The necessary adjustments are to be made in consultation with the publisher of this Group Policy.

In the implementation in Hungary, the prevailing Hungarian and supranational law as well as the existing collective-law regulations and participation rights of the competent employee representation bodies must be observed.

4 Diversity, Equity and Inclusion in the Deutsche Telekom Group

4.1. Definition, Strategies, Goals and Benefits of DE&I

Diversity is a term that describes the differences in our workforce based on demographic, personal or societal factors. This includes the diversity dimensions: Age, gender identity and gender expression, people with different physical and mental abilities, nationality, social and ethnic origin, social status, religion and belief, political opinion, health status, sexual identity and sexual orientation.

Equity describes the basic attitude that every person should have fair opportunities, access and development possibilities, regardless of individual circumstances.

Inclusion describes the way in which we consciously involve different people (employees and others such as customers) in work and decision-making processes and give them a sense of belonging and value within our organization.

We are changing the game: for us, DE&I is a concept that aims to make a significant contribution to the business success of the Magyar Telekom Group through the recognition, appreciation, inclusion, fair treatment and promotion of our diverse individual stakeholders (employees, shareholders, customers, suppliers).

By recognizing and promoting the diversity of our workforce, we at Magyar Telekom strive to live and strengthen DE&I as part of our corporate culture. Magyar Telekom also sees itself as an active member of society and takes responsibility when it comes to social issues. That is why we use our power to shape change in the areas we operate in and are committed to foster an open, diverse, digitally and physically inclusive and equal society.

4.2. Recognition of Diversity

The Magyar Telekom Group recognizes the aforementioned diversity dimensions and takes them fully into account when implementing the DE&I concept. Depending on context, further dimensions can be considered when appropriate. These include education, parenthood, family status, culture, language, way of thinking and working, company affiliation and experience. We consciously and with an open mind acknowledge the diversity of our stakeholders and our social environment. We promote this diversity by acting proactively in our social and business areas. As a result, we create and consolidate connections that enable us to grasp all opportunities and potential.

4.3. Equity and equal opportunities

Equity describes the basic attitude that every person should have fair opportunities, access and development possibilities, regardless of individual circumstances. Moreover, we recognize that we have to go the extra mile to elevate underrepresented groups through special measures in order to provide a fair chance and break down barriers.

We strive to minimize physical or digital barriers within our business model, giving high priority to equity criteria in addition to economic aspects. We continue the integration of people with disabilities in the workplace by dedicated means (e.g. technical aids) so that they can participate in an environment with equal working conditions.

To achieve a better work-life-balance, we offer a diverse portfolio of work-life-initiatives and adapt these to our constantly changing environment. Ever faster changes require an increasing flexibility of employees. We respect individual life plans and support high flexibility with innovative forms of remuneration, flexible working time models, flexible employment contracts (both temporary and permanent) and modern working conditions.

4.4. Inclusion is inherent in our company purpose

Inclusion describes the behavioral pattern by which we consciously involve different people in work and decision-making processes and give them a sense of belonging and value within our organization. The unconditional, open and sensitive interaction with all stakeholders is the basic prerequisite for the optimal use of all operational potentials. Therefore, we strive for employee wellbeing and to ensure that all opinions can be heard. By committing to connecting everyone, we also create a culture and working environment in our company where everyone feels accepted for who they are and feels they belong.

4.5. Act with Respect and Integrity

Magyar Telekom Group takes accountability for sustaining the DE&I values. We expect our employees to conduct themselves in accordance with this Group Policy.

Respect and integrity are key to our long-term business success. We strive for diversity and act responsibly. We treat people the way we would like to be treated.

For us, integrity means doing the right thing. We not only comply with internal policies, regulations and the law, but always act in accordance with our guiding principle "Act with respect and integrity". We promote ethical awareness and strengthen value-based behavior to act appropriately in any situation. We are a courageous organization that stands against immoral and unethical behavior. Being courageous in everyday business requires a compass of values consisting of honesty, reliability, a sense of community and solidarity. We clearly name critical issues, unethical behavior or possible misconduct. All of our employees act with integrity and conviction.

Employees of Magyar Telekom Group do not tolerate any form of direct or indirect violence, discrimination or harassment at work – neither online nor offline. We also do not tolerate any kind of racism or anti-Semitism. Consequently, when representing Magyar Telekom, everyone shall refrain from behavior which could have a discriminatory and/or harassing effect on others, both inside and outside of the company. This includes Magyar Telekom's external presentation (e.g. marketing measures).

We are committed to zero tolerance of any form of sexual harassment in the workplace. Throughout the Group, we treat all incidents seriously and investigate all allegations of sexual harassment. Any allegations of deliberate misconduct will be punished in accordance with the applicable statutory provisions and employment law, regardless of the rank and position of the person in question within the Group.

In the event of a violation or suspected violation of this Group Policy, employees should first contact their immediate supervisor. If this route is not possible, employees can turn to the complaint offices listed in Annex 1. If there are indications of non-compliant behavior, the Magyar Telekom Group offers the portal "Tell me!" (www.telekom.com/tell-me) as a reporting office. It is also possible to submit information anonymously to "Tell me!"

4.6. Internal and External Reference Framework

With this global DE&I Group Policy, our intention is to foster the DE&I values as an addition to our corporate guiding documents such as our Group Code of Conduct, our Group Guiding Principles, our Group Code of Human Rights & Social Principles, our Employee Relations Group Policy and our Digital Ethics Guidelines.

Furthermore, we are working on extending the principles of DE&I to our entire value chain through our Supplier Code of Conduct, which is intended to be the basis for any collaboration with suppliers and consultants at Magyar Telekom.

We are committed to the fundamental frameworks that comprise the issues of DE&I. These include the Universal Declaration of Human Rights, the International Labor Organization's Guidelines and Declaration of Principles for Multinational Enterprises, the Organization for Economic Cooperation and Development's Convention, the Guiding Principles for Multinational Enterprises, and the ten principles of the United Nations Global Compact. Furthermore, we observe guidance from the EU anti-discrimination directives and local law in the respective countries where we operate in.
